1 Preliminary Remarks and Reading Aid

In this codebook all 23 data files of the on-site SUF with a total of 1192 variables are documented. Each chapter starts with an overview of all variables in a file—in the order of their appearance in the file. The variable names are linked to the information on the respective variable.

This information—if available—is presented:

- variable name (bold)
- variable label in the data file
- reference to the questionnaire (see version suffix for variable name, as described on page 9 in the data manual and variable [tx80211](#))

- question number after a colon
- question (bold), partly with different wording alternatives with the corresponding conditions and clickable question numbers
- closer definition of the question for this variable (bold) after a delimiter ▷
- interview instructions
- table with frequencies
 - column 1: value
 - column 2: value label
 - column 3: absolute frequencies

The length of the table has been technically limited; where required the number of removed lines is reported.

tx80401 Willingness: merging data from Federal Employment Agency 3: 26400

In order to keep the following interview sections as short as possible, we would like to incorporate data held by the "Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit" (Institute for Employment Research of the Federal Employment Agency) into the analysis of this questionnaire. This includes, for instance, information relating to previous employment relationships, phases of unemployment, participation in training measures during unemployment as well as company characteristics. I would ask you give your official consent for the transfer and incorporation of this data into the interview data. If this information is evaluated, we guarantee that it is done so in strict compliance with all data protection regulations and that no information is passed on to third parties. Your consent is, of course, voluntary. You can withdraw this consent at any time by informing the contact person at infas. Do you consent to the transfer of data held by the "Institut für Arbeitsmarkt- und Berufsforschung der Bundesagentur für Arbeit" (Institute for Employment Research of the Federal Employment Agency)? «Contact person's e-mail address and telephone number are given in the letter. This consent is of great importance to the analysis of the study. Please therefore answer any questions the subject may have in a professional, competent manner. A high degree of confidentiality with the data protection sheet is vital»

ts15101 Introduction "Ausbildung" 1

3: 24105

if (24105(n-1) = .) I would now like to ask you about your formal vocational training. Please think back to your apprenticeship, your attendance at a Fachschule (school for continuing vocational training) or Berufsfachschule (full-time vocational school), your degree at an institute of higher education or your doctorate We want to record all the formal vocational training programs that you took part in – regardless of whe-

ther you completed these or not. **Did you ever undertake formal vocational training? if (24105(n-1) >= 1) Have you (excluding this vocational/professional training course) ever undertaken other vocational/professional training; e.g., an apprenticeship, a training program at a Fachschule or Berufsfachschule, a university degree or doctorate?** «The following do not count as such: Training time, preparatory service, Volontariat (traineeship after university graduation, especially in journalism and publishing), probationary year, traineeship, vicariate (training for probationers in ministry), first year resident (young physician in compulsory practical training), pharmaceutical practical training and other types of internships. These phases will later be recorded as employment. Short-term, job-related further education/training measures are not to be recorded here»
